Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

Lake County continues to facilitate programs throughout our jurisdiction that aid the majority. Prioritizing disabled and elderly, however making it feasible for homeowners and those wanting to become homeowners accessible to aid that meet the objective goals as a whole. Some projects may take longer than others, due to some activities/projects facing unforeseen circumstances that took precedence over time tables .

Awarded HOME & CDBG funds are allocated to communities where the activities met the social needs of the public and socio-economic requirements.

As indicated in the Consolidated Plan a few projects have been fulfilled or no longer meet the County's expectations of the projected plan causing

the actual outcomes to differ with the expectations. The ultimate goal is to continue to a source of aid to those within the County's jurisdiction making the most of the provided funds to low /moderate households and persons to met the goals of the targeted projects.

Narrative Information

Lake County expects to be a continued source of aid to the households within the targeted communities. Making changes to be a greater source of aid to fulfill the need of homeownership and sustainability, LCCEDD has increased the DPA amount to allow homeownership obtainable.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Department does not directly reach out to homeless persons. There are other staffed entities partnered with with mainly Co-Action that takes on this task in a more efficient manner. The County does offer a Homeless Prevention program, aiding the at- risk, and those obtaining housing to decrease the number of homeless population.

The County's homeless strategies are based on the needs, priorities and strategies of the overall collaborations of agencies. There is very little street outreach within the urban county jurisdiction. The County's Homeless Prevention Program serves as one point of aid. Township offices, Co-Action, and religious organizations can also serve as a resource when residents are seeking housing assistance.

Once connected with a suitable provider the homeless person(s) assisted by the lead organization, will undergo a coordinated entry and assessment process. Coordinated entry helps prioritize assistance based on vulnerability and severity of service needs. This process ensures that people who needs assistance can receive it in a timely manner. All members of CoAction are located in Lake County areas are required to use coordinated entry process. The Balance of State has provided training and service providers within Lake are fully operational. The system includes the following elements: (1) process for determining eligibility; (2) process for determining priority and assistance amounts for rapid rehousing; (3) process for determining priority for permanent supportive housing; and (4) referral services. The processes and assessments are standardized and are used by all providers with the aim of removing barriers of entry to the system for any population.

Addressing the emergency shelter and transitional housing needs of homeless persons

Lake County does not operate emergency shelters nor transitional housing. There are other non governmental organizations that provide a direct line of assistance for persons that are homeless or at risk of becoming homeless with assistance to emergency shelters, transitional housing and other various types relief. The County continues to partner with said organization.

While emergency shelters and transitional housing programs still have a place in the overall continuum, the focus has now shifted to a Housing First model that emphasizes the placement of homeless persons in stabilized housing situations as soon as possible.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after

being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The County's use of Community Development Block Grant (CDBG) funds are allocated and used for the Homeless Prevention Program in the amount of \$75,000.00 for fiscal year 2025-26, the program offers assistance up to \$1,000.00 for low to moderated income qualified families, persons with delinquencies, security deposit as well as mortgage aid to prevent homelessness.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The County's Homeless Prevention Program is a piece of the combined efforts to aiding and facilitating independency, with transitional housing from other agencies. The County's Homeless Prevention program is expected to shorten the time of a household and or person's homelessness.

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Regulatory standards depend on location as various cities and towns have local codes affecting housing rehabilitation and new construction. Home repair activities are inspected at the beginning and a final time upon completion of rehabilitation. Major rehabilitation projects are inspected several times during the construction period and always before making partial and final payments. The County follows 24 CFR 92.504(d) for inspection of assisted rental units. Upon monitoring HOME assisted projects if there are findings, those matters are addressed and given ample time to be rectified.

Down payment and Owner Housing Rehabilitation assistance projects are monitored to ensure standards are met.

Residency affidavits are mailed out annually to the homeowner(s) to insure continued occupancy. If an affidavit is not returned by mail, Recorder files are investigated and physical inspection is made by LCCEDD staff to determine if the dwelling is still occupied by the client(s). If not, legal action is pursued to regain the funds provided to that client.
